Education

LJ University (LJIET)

B.E. – Computer Engineering (2022–2026)
Ahmedabad, Gujarat

Technical Skills

- **Frontend:** React.js, Next.js, JavaScript, TypeScript
- **Styling:** Tailwind CSS, shadcn/ui
- **Backend:** Next.js Server Actions, API Routes, Django, Codeigniter 3
- **Database:** PostgreSQL, Prisma ORM, sqlite3,
- **Architecture:** Multi-tenant systems, RBAC
- **Tools:** Git, GitHub, Vercel

Work Experience

Salt Pixels — Web Dev Intern Mar 2025 – Oct 2025

- Contributed to multiple production-level client projects using **ReactJS**, **NextJS**, **Codeigniter** and **Angular CLI**, focusing on scalable, component-based UI development.
- Translated design requirements into reusable frontend components, improving maintainability and consistency across applications.
- Optimized client applications for performance and responsiveness, ensuring smooth behavior across devices.
- Worked within an agile development workflow, collaborating with designers and developers to deliver features under real deadlines.

PROJECTS

Multi-Tenant SaaS Analytics Platform | Next.js, Prisma, PostgreSQL

- Built a multi-tenant SaaS platform with tenant-based routing and strict data isolation across organizations.
- Implemented a permission-based RBAC system for secure, fine-grained access control at page and API levels.
- Developed scalable backend using Next.js Server Actions, Prisma, and PostgreSQL, handling company-specific data efficiently.
- Designed a responsive analytics dashboard and reusable UI components using Tailwind and shadcn/ui.

ACHIEVEMENTS & INTERESTS

- Worked on Multiple live projects.
- Interested in scalable web architectures and exploring AI-powered interfaces.
- **Certificates:**
 - [IBM Front-End Development](#)
 - [IBM Back-End Development](#)

● eLitmus | React, Django (Freelance)

- Developed a full-stack online exam platform with secure authentication, real-time data handling, and result visualization using React and Django

● InterioVirt | React, Fabric.js, Django

- Built an interactive 2D interior design tool with drag-and-drop functionality using Fabric.js and HTML Canvas, enabling real-time object manipulation.
 - Developed a full-stack system with Django and REST APIs for authentication, project management, and seamless client-server data flow.
-
